Product Description

SAVE TIME WITH AUTOMATIC ADD & BATCH FEATURES

Let the 2250 help you optimize your cash-counting workflow. Press the convenient "add" button and the 2250 will automatically keep track of the total note count across individual runs. Press "batch" and enter the desired number of bills and the 2250 will automatically pause each time it counts out that number. There's no faster way to prepare your bank deposits and cash drawers.

3-POINT COUNTERFEIT DETECTION

Today's currencies are printed with sophisticated security features that make it hard for counterfeiters to succeed. The 2250 automatically checks every banknote for three distinct security traits: UV markings, magnetic markings and bill size. It will pause and beep to alert you when it encounters a suspicious bill; simply remove the offender and press start to resume counting.

EASY TO USE WITH A LARGE, CLEAR DISPLAY

The 2250 has an intuitive control panel and a large, crisp display. Six clearly labeled buttons provide easy access to the 2250's many features. The spacious backlit LCD screen tells you exactly what you need to know: the number of notes counted and the specific count and detection settings you've selected.
