### Product Description

The Intimus Pro 32 SC2 is a 3.8mm Strip Cut Desk Side Shredder and is a multi functional machine with a host of features that destroys paper, staples, paper clips, credit cards and CD/DVD's. The machine is supplied with a user friendly removable waste basket for easy emptying of shreds within its compact design. The Intimus Pro 32 SC2 shredder is made from shock resistant recyclable plastic and supplied with a manufacturer's 20 year limited cutter guarantee. Also supplied with DLS Dynamic-Load-Sensor which informs the user how much to shred by detecting the paper volume as it is fed into the cutting unit and illuminating a light strip in the throat area like traffic lights to eliminate paper jams.

It has a strip cut security level of P-2 and comes with Silentec® technology; an innovative tool that eliminates noise by dampening sound, allowing the machines to be used in busy offices without disturbance.

The Intimus Pro 32 SC2 also features an i-control® function button and a combination user lock for added security protecting the shredder against unauthorized use. The service information feature ensures reliable, long-term operation by informing the user when the door is open, when the bin is full or if the motor overheats.

The Intimus Pro 32 SC2 come with EcoLogic; an electronic energy management system saving valuable resources by putting the machine to sleep after it has been idle for 30 minutes, cutting the power required to zero. Two different cutting heads shred and collect paper and digital media separately.
