Product Description

There is no need to prepare the paper into pre-stacked, perfectly aligned piles for the AutoMax 200C, simply load up to 200 sheets into the shredding drawer, close, press shred and walk away. Your documents will be shredded into tiny 4x38mm Security Level P-4 particles in 5 minutes or less (depending on the number of sheets entered). Waste shreds fall into the generous waste bin that features a mechanism to evenly distribute shredded paper to avoid false bin full interruptions. A JamGuard System prevents shredding interruptions for jam free operation whilst Silent Shred enhances usage in any quiet office. A sleep mode feature shuts down the shredder after 2 minutes of inactivity for great Energy Savings.

- AutoMax® offers a truly walk away shredding experience, automatically shredding stacks of paper with wrinkles, staples, and even paper clips. Simply load the drawer, press start, and walk away!
- Shreds stacks of up to 200 sheets automatically and 10 sheets manually for 25 minutes, allow your shredding jobs to be completed in one sitting
- Shreds documents into 5/32" x 1½" cross-cut particles for enhanced security on highly confidential documents to help keep your information safe. Also shreds credit cards, paper clips, CDs/DVDs and junk mail
- Patented AccuFeed System™ provides a fast, hands-free shredding experience while the Auto Reverse feature stops and reverses paper if a jam occurs, helping to reduce jams and frustration
- Spacious 32L pull-out bin and LED bin-full indicator eliminates the need for frequent emptying
