DYMO LabelManager 280P Machine

The Dymo LabelManager 280 All-Purpose Label Maker uses thermal transfer to print labels in both 3/8" and 1/2" widths. The printers' handheld size as well as ribbon- and ink cartridge design makes it easy to bring labeling functionality wherever you go. The large graphical display shows you exactly how your label will look - no need to waste tape with test prints. There's no need to worry about charging batteries or finding an outlet, the label maker uses standard AA batteries. The simple, yet comprehensive button layout makes printing labels intuitive. Code: 45003
