## Product Description

## Features

The carbon prefilter not only captures odours and gases, but it also offers the first level of defence against dust and pet hair. This layer is what needs to be replaced on the HEPA drum filter. For best results, replace carbon layer filter every 3 months. Change indicator light is displayed on purifier when filter needs to be replaced. Compatible with Leitz TruSens Z-1000 Air Purifier [video width="1920" height="1080" mp4="https://www.completesupplies.com.mt/wp-content/uploads/2020/10/73129-original.mp4"][/video]
