Product Description

Features

The TruSens combination filter has been engineered to collect microscopic particles, allergens and volatile organic components (VOC's), and odorous gases 360 degree filtration draws in air from all directions, collecting pollutants from around the room that may affect allergy and symptoms Carbon prefilter captures odours and certain gases, and offers the first level of defence against dust and pet hair HEPA Type filter removes pollutants as small as 0.3 microns – that's roughly 30 times smaller than a strand of hair Change indicator light is displayed on purifier when filters need to be replaced Compatible with Leitz TruSens Z-1000 Air Purifier [video width="1920" height="1080" mp4="https://www.completesupplies.com.mt/wp-content/uploads/2020/10/73131-original.mp4"][/video]
