## Product Description

Tape dispensers help you to take a piece of sticky tape immediately as you need it, without the fuss of scrabbling to find the end. With this tape dispenser and tape from Office Depot, simply pull as much as you need off the wheel of the tape, and tear it against the serrated metal teeth of the dispenser for a clean and quick cut.

This everyday tape dispenser is suitable for use with small core tapes, and comes in delivery with 6 rolls of clear tape. Each roll has 19 metres of tape, giving you plenty of time before needing to re-stock. This dispenser comes in the colour black, fitting neatly on your desk and fitting in with any office design.
