Product Description

The Office Depot Superior whiteboard is ideal for use in training, conference and meeting rooms. Thanks to the enamelled surface, the whiteboard is extremely scratch, heat and acid resistant. It can be used with magnets to attach messages, charts and pictures. The easy-to-clean, dry-wipeable, smooth surface leaves no residue. The strong yet lightweight aluminum frame has snap-in corner caps to hide unsightly wall mountings.

In addition to the white whiteboard, you also receive a clip-on pen tray on which you can easily place an eraser sponge and marker. With the dimensions 90 x 60 cm or 120 x 90cm, this dry cleaning board offers a soft, high color contrast that emphasizes and clearly presents what is written. The grid pattern recognizable in the zoom image supports you in creating graphics and ensures that you can write straight away. The audience can hardly see the grid. Pens, sponge and magnets are not included.
