Product Description

-

RELIABLE HIGH-SPEED COUNTING

Save time and eliminate all chance of error. The Safescan 2465-S's back-loading hopper can hold up to 300 banknotes and accurately count them, up to 1.000 notes per minute.

(See Image)

-

AUTOMATICALLY VALUE COUNT MIXED EURO NOTES

Like all Safescan money counters, the 2465-S rapidly and reliably counts sorted bills in any currency, including custom coupons and vouchers. But it can also count unsorted Euro notes. Just place your unsorted stack on the hopper and press start; the 2465-S will automatically keep track of the number and value counted for each denomination.

(See Image)

-

SAVE TIME WITH AUTOMATIC ADD & BATCH FUNCTION

The Safescan 2465-S has multiple automated features to make your counting process easier. Use the add feature to automatically add up the amount of notes counted across different runs.

Need to create equal stacks of banknotes? Simply use the integrated batch function and the Safescan 2465-S will do the work for you. (See Image)

-

TOP-OF-THE-LINE COUNTERFEIT DETECTION

The Safescan 2465-S uses the latest counterfeit detection technology to scrutinize up to seven advanced security features built into today's currencies: ultraviolet ink, infrared ink, magnetic ink, metallic thread, color, size and thickness. This technology is so reliable it will detect double notes and half notes. You'll know with 100% certainty whether each note is genuine or counterfeit.
(See Image)

• **GUARANTEED 100% RELIABLE**

The 2465-S is regularly put through rigorous testing by major central banks, using their latest test decks of genuine and counterfeit banknotes. Every time, the 2465-S passes these tests with flying colors, guaranteeing that it reliably identifies both counterfeit and authentic banknotes with proven 100% accuracy.
(See Image)

• **FULLY VERIFIES UP TO 6 CURRENCIES**

The 2465-S is programmed to identify and authenticate banknotes in 6 different currencies (EUR, GBP, CHF, PLN, SEK, NOK).
(See Image)

• **ALWAYS UP-TO-DATE**

Central banks are constantly updating their banknotes to incorporate the newest security features and make it even harder for counterfeiters to succeed. Safescan's dedicated currency management team makes sure your 2465-S keeps pace with these changes. We notify you whenever there's an update; all you have to do is install it using the USB port or Micro SD slot on the back of the device.
